Our course is calculator based and the formulas are 100% irrelevant. Learning corporate finance by formula is "ridiculous, and holds no real value" said my instructor so we are to work on the problems in the book while ignoring the formulas. The practice problems in this book are good, but the value of their style of instruction is poor.

It discusses the theoretical competent of corporate finance too and its importance in the growth and value of a firm. There's a ton of information in this book and, like most things in life, you'll get out of it what you put in. To that end, I would recommend solving one problem from each chapter's problem sets.
