Cosmic Jackpot: Why Our Universe Is Just... book by Paul ...

As the subtitle indicates, Cosmic Jackpot: Why Our Universe Is Just Right for Life (by Paul Davies, Houghton Mifflin, New York, 2007, 315 pp.) is a treatise that supports the "intelligent design" assertion that the natural constants were designed by some kind of deity so that life would originate (if given proper ingredients in the primordial "soup," reasonable temperature, pressure, source of energy, plenty of time, and so forth). But, I hasten to add, I am apparently putting words ...

For example, Alejandro's thoughtful review of "Cosmic Jackpot" notes that Davies criticizes the anthropic principle, which generally posits a multitude of universes in addition to ours, because he feels it is much more likely that we'd be living in a computer simulation of a universe than in a real one. Well, I liked The Matrix as a movie.
