**South Bend Lathe CI 179**  
South Bend Lathe Works was founded in 1906 by the O'Brien twin brothers after they graduated from Purdue University in Indiana. Within just a quarter of a century, South Bend Lathe Works became the largest manufacturer of precision metalworking lathes in the world with customers in more than 88 countries, and machines which were used in every type of industry inclu

**South Bend Lathe Co.**  
This does not cover all lathes manufactured, only those after the early 1940's. The catalog number can be used to identify the lathe, but when ordering parts, we always ask for the serial number because many styles and sizes were made over 100 years, and some had special features or accessories.

**South Bend Lathe Co.**  
and facilities of South Bend Lathe are devoted exclusively to the production of precision machine tools. Operated first as a partnership and incorporated in 1914, the South Bend Lathe Works remained a closely held corpora tion until 1936 when its stock was first listed on the Chicago Stock Exchange, now the Midwest Stock Exchange of Chicago.

Welcome Darrin64 That lathe you pictured is the first lathe I had when I started my shop back in 1997. At the time it seemed like all the lathe I would need, and it did a lot of work, for sure, but quickly found it has its limits so went onto a Monarch model M, then added a Monarch 10ee , then a Monarch model 60, 16x30" then finally a American Pacemaker model d 24x72.

I have been searching a few years for a larger SB Lathe to augment my SB 9B. There is a Cat # CL 145C for sale a couple of hundred miles from me that is described as a 12.5 inch swing with 6 foot bed. The photos show that it has the late model SB name plates and a plate indicating a fame hardened bed. The serial number is for about 1978.

For sale 10 heavy south bend lathe. 24" between centers. Its in great shape not a lot of wear. Has 3 jaw chuck, live center and tool holder with right, left, straight, and threading tools. It has a 1hp USA baldor motor on it that is 3 phase but I have installed a vfd to make it 240v single phase and have variable speed with just turn of a knob.
