Tattoo Shading Techniques

Fire up your tattoo machine. Ensure that you are using a machine that is appropriate to the tattoo and made for shading. Use a needle type and size that will fit the work that you are doing. Adjust the speed on the power supply as well. Many tattoo artists recommend a lower speed for shading than normal lining.

3 Ways to Shade a Tattoo - wikiHow

Preparing the Area - Shading takes place after outlining, and it is recommended to clean the entire area of the tattoo with soap and water. This helps to get rid of excess ink left by the lining process, as well as to get off any stencil marks or sticky residue that have been left behind so you can make sure your line work is solid before starting to shade.
